

COMPANIES PROJECT

First Project

Your every needs is at 

Food product

Business equipment

Household needs

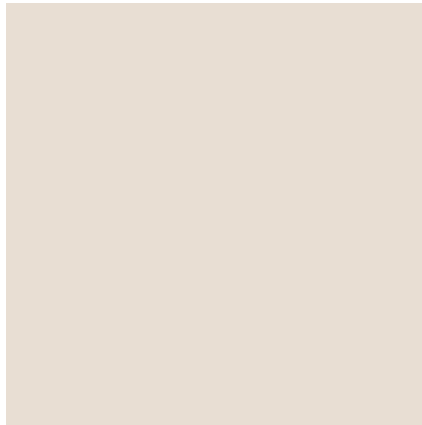

ONO is an application that sells **merchandise**, you can **buy** and search products with **filtering** directly from your smartphone and get the voucher as many as you can.

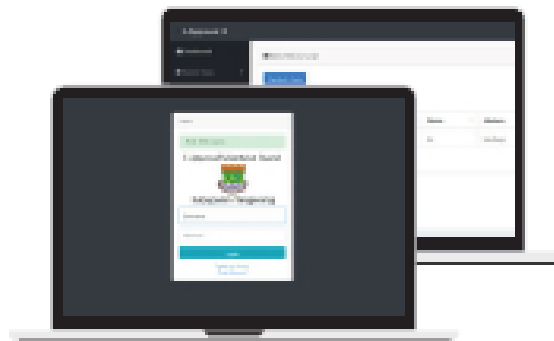

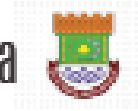

COMPANIES PROJECT

Second Project

E-Approval SekDa

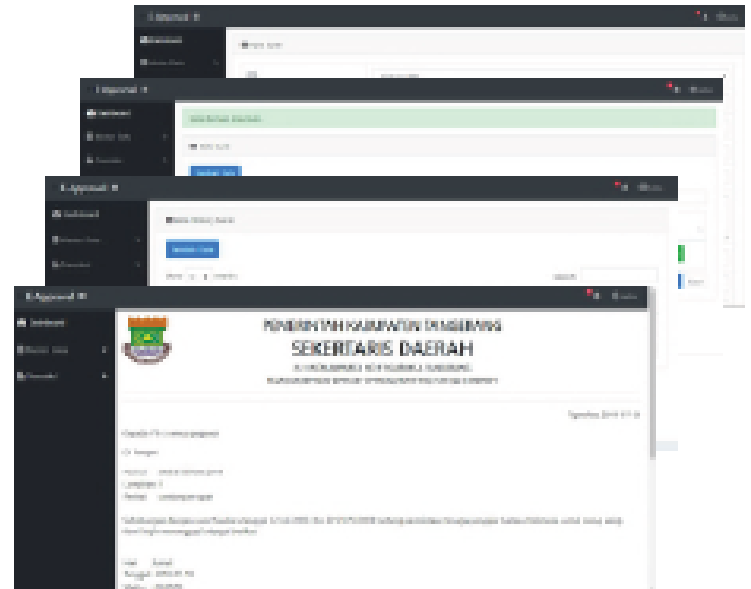

More efficient

Makes it easy for users

Ease the workers

This **website** aims to make letters or **form** more **efficient**, whereby **users** enter **data** and immediately await **approval** from the person in charge.

COMPETITION PROJECT

Wesantai

Tourism application with one of its superior features, namely renting a **villa** from a local **resident's house**, so that you can increase your knowledge about the culture there and definitely save costs. and this take my team to the final of the smart hackthon national competition at jakarta

Trash Can

Application exchanges **rubbish for money**, I made this application with my team and this application took us to the final of the hackthon DiLo competition in surabaya

COMPETITION PROJECT

Mom Care

Application for mothers about **Mpasi** and can **buy mpasi** sold by other users. This application brings to the 2nd winner of techcomfest 2019

SIS

Student information system applications, which are motivated to be made because the lack of **up-to-date information for parents an online SPP payments**. coincidentally here I focus on working on the **Android backend**. This application took me and the team to the 2nd winner of techcomfest competition 2020

EXPERIMENT PROJECT

DD

Donor Darah is an application to provide **information** on where is the nearest pmi and its **schedule**.

I made this application for the semester project exam

Quotes App

Quotes is one of the first simple applications when I **first started** making an Android application, This application contains **words** with **pictures** and 'FYI' words there were **made by me** personally.

PROPOSAL PROJECT

Usually every initial stage in the competition is to **submit** project proposals, then select some to be **selected** to qualify for the finals or the next stage. And in almost every competition I made the proposal. One of the beginning is **trash can** an proposal

To See Completely

The **point** in a proposal is usually about the **purpose** of making the application such as 'background, **benefits**, and mockup'. This is the **last** proposal I made before graduation

To See Completely

PITCH DECK PRESENT

As with proposals, I usually make a pitch deck to present, pitch deck is a general description for business development, in our startup projects or applications. Usually the pitch deck contains 'problems and their solutions, market validation, market size, business models, and competitors'

To See Completely

To See Completely

simple white theme

PHOTOGRAPHY PROJECT

Okay get into the part that makes me **very excited**. That is **Photography**, yeah I'm very **interested** in this field maybe you rarely see **women** who like this field, because it takes **patience** and **creativity** to produce an **interesting photo**, but that's what makes me **challenged**, so here I will **show** you some of the photo themes I have ever taken.

Flat-Lay-Photography

In the **simplest** terms: a flat lay is a **photograph** taken from **directly above**. lately I just **studied** this one theme and you can see one example, the **second photo** above.

Building Theme

PHOTOGRAPHY PROJECT

Building Photography is also known as **Architectural Photography**, in **my opinion** the building that we can **show the interesting side** or in the language of photography is the **aesthetics in terms of architecture, art**, and so on. Here are some random photos about it.

Simple Interior Theme
PHOTOGRAPHY PROJECT

Interior photography, actually I **didn't know** about this theme **before** but I once took it and when I uploaded it on my **unsplash** some **people put it** into their **collection** with the theme **'interior'**. So I know that now.

I **usually** only take photos that I find **interesting** and **try to find** the **best side** of the photo **without caring** about its **theme** and so on.
